Aswan

Organizing a Nile felucca is regarded as a distinctive and enjoyable experience that enables tourists to take in the splendor of the Nile River and its enchanted vistas. Visitors can take in the splendor of the Nile under a dazzlingly blue sky by taking a Nile-felucca trip. While guests take in breathtaking views of the lush banks and historic sites, booking a felucca gives them the chance to unwind in the sun and enjoy the serene Nile waves. For those who enjoy the outdoors and water sports, renting a felucca on the Nile adds a wonderful touch to the vacation and makes it an experience they won't soon forget.

After that, we started another adventure to one of the islands so famous in Aswan, Elephant Island, located in the middle of the Nile River and one of the strongest fortresses on the southern border of Egypt, which separates the Nile into two opposite channels at the height of Aswan. It had a temple of Philae that was moved from its original location on the island of Philae and mounted on the island Agilika after the construction of the High Dam.

Then, we conclude our excursion with an unforgettable visit to the Botanical Island, or “Botanical Garden,” of Aswan, one of Aswan's most important tourist attractions and a destination for tourists and visitors, and one of the rarest and oldest botanical gardens and islands in the world, a natural botanical museum dating back to 1898 during the British occupation of Egypt, when Lord Kitchener, the commander of the British campaign forces, was in charge of the botanical garden.
