Parasailing Trip in Sharm El Sheikh

The tour begins with a short boat ride to the site where the parasailers will be launched. After you have signed some waivers and received your instructions, you'll be fitted for your harness with a short briefing on how to use your parachute.

Once you're all geared up, it's time to take off! The boat will take off from shore and then head out into deeper water. Once the boat is at a safe distance from land, you will be given instructions on how to get into your harness and ready for take-off. Once ready, a member of staff will help you onto the parasail and release it from its moorings – wahey! Then it's just a matter of jumping off the boat and letting gravity do its thing! As soon as you get airborne, you'll have some time to enjoy the breathtaking views as far as the eye can see (and maybe even further) before coming back down again.

The whole ride lasts about 20 minutes, so it's a great way to kill time while on vacation in [Egypt](#).
