Diving Excursion in Port Ghalib

The day of your dive excursion will start with an early morning boat ride from [Port Ghalib](#) to one of the area's many dive sites. From there, we will board a smaller boat that takes us out to our dive site. Once you arrive at your destination, A certified instructor will be on hand to teach you how to dive safely and enjoyably.

Then you'll get suited up in your gear and prepare for a day underwater filled with adventure! Once everyone is ready, we'll head out deeper into the sea and then take turns diving from the boat. Your guide will take you to some of the most amazing reefs in the area where you can explore at your own pace.

There are also some caves that can be explored if desired. You'll have about 20 minutes at your chosen depth before it's time to begin your ascent back up to the surface. Once back on land again, you'll have time for lunch before heading home on our bus back to your hotel.

We recommended you sleep early and also wake up early to be more active and ready for this magnificent adventure underwater.
