Cairo Pyramids tour from Port Said

Have a fun day full of activities: enjoy the Cairo Pyramids tour from Port Said. We are going to start our day by being met by our representative leading you to your private Car with an AC option and traveling all the way to Cairo. After you reach Cairo from Port Said you are going to have the following program:

The Great Pyramid is approximately 4,600 years old and contains 2.3 million limestone blocks and weighs nearly 6 million tons. The great pyramids had been built by Egyptian workers and engineers who had great

skills in organization and cultivating the work of art.

The Great Sphinx:

It's a great statue made of limestone to guard the treasures of the lying kings in their tombs of the massive pyramids. The ancient Egyptians built it as a guardian for their second life after death. There are catacombs located in and around the body of the "Sphinx." One of the most important of these catacombs is located approximately in the middle of the statue's back, on the opening of the upper basement. It is a "metal door" that can be opened and locked, and it is not known precisely where this basement leads.

The valley temple:

It is a temple that the ancient Egyptians were building on the shore of the Nile near the pyramids and connected to them by a road called the "Process Road". After the death of Pharaoh, his body was embalmed and his mummies were prepared in the Valley Temple, then they were transported in a large procession to a temple directly next to the pyramid, called the Mortuary Temple.

You can have a camel ride trying to chill in the Egyptian dessert or Have a quad Bike adventure to enjoy. Then you will be transferred to have an Egyptian traditional meal to try the Egyptian taste. Finally, we will back to the port.

Day meals: Lunch.
