### [Itinerary](#)

## Sokhna Port to Cairo pyramids day tour

Upon your arrival in Sokhna Port, a private bus will take you to Cairo. Our representative will take you right away to start your day's visit to the [Giza Pyramids](#).

The pyramids are a distinctive geometric shape that is multifaceted and has a vertex at the top. Each side of the pyramid constitutes a pyramid, meaning that each edge, base, and vertex of a triangle is part of the

structure. The shape of the pyramid allows the weight to be distributed evenly in all parts of the building, which makes it an ideal structure for constructing buildings.

The 138 pyramids in Egypt are a testament to the power and influence of the ancient Egyptians. The largest of these pyramids, the Pyramid of Khufu, is especially impressive. Archaeologists believe that King Khafre, who ruled 4,500 years ago, was the one who built the Great statue of [Sphinx](#). You will also visit [The Valley Temple](#) of the Pyramid of King Khafre, located next to the pyramid, is a beautiful temple made of granite stones. It has a bridge extending between it and the pyramid.

There are several statues of King Khafre and the god Horus known as the falcon god; because they are crafted from the hard, smooth stones found only in the Nubian desert, it is clear that these statues are of great historical value.

Also the mighty Nile River has been an essential part of ancient Egyptian history, helping to create the Nile Calendar and guide rulers in the allocation of fertile land for agriculture. It was known as "Iet ruaa," the god of life.

You will get to experience a camel ride and the quad bike tour around the Pyramid.

After that you will have lunch in an Egyptian restaurant.

At the end of the day, you will be transferred all the way back to Sokhna port.

For an all-day excursion of fun, book the Sokhna Port to Cairo Pyramids day tour with our experienced tour guides!
