Baatara Gorge Sinkhole tour

Today's panoramic highlights include the beautiful Baatara Sinkhole. This Jurassic limestone canyon features three natural rock bridges, and in the spring, melting snow from surrounding mountains generates a cascade

that flows 255 metres into the sinkhole below.

You may continue your trip with our [Destinations](#) into the countryside here, or go to the adjacent settlement of Douma. Today, you'll have a typical Lebanese lunch before heading to Byblos for a peaceful afternoon. If you want to spend more time trekking in the Qadisha Valley, you may do so today morning before heading to Baatara Gorge in the afternoon on the way to Byblos.
