Day 2- Cairo to the white desert

We will pick you up from your hotel, then you will be transferred to Bahariya Oasis. There will be two coffee breaks along the way.

Your journey to the black desert will start when you arrive at Bahariya Oasis, where you'll meet your safari guide and board your 4x4 Jeep. Lunch will be served here in El Haize Oasis, which is 37 kilometers away from Bawiti.

A hot spring soak can help you unwind before lunch and will almost immediately make you feel less stressed. The heat induces natural muscle relaxation, which promotes a quiet, comfortable, and tranquil frame of mind. The "water museum" was built here to inform visitors about the importance of subsurface water for desert residents as well as the equipment the Egyptians employed to raise water for irrigation.

In the heart of the White Desert, you can take a drive to [the Agabat Valley](#). Then, while driving a Jeep 4x4 through Wadi el Agabat, enjoy sandboarding and check out Egypt's most well-known desert area, [the White Desert National Park](#) because the sky first becomes pink, then the darkest, hottest orange, the rock formations disintegrate and the entire area is silent. camping in the desert, consuming a simple dinner of chicken, rice, and vegetables, and congregating around a little fire.

The term "the Jewel of the Desert" and the hill's spectacular look when lighted by the sun are attributed to the quartzite crystals that make up the hill, which can be seen on the right.

Drive to the Bahariya Oasis and unwind by soaking in the hot springs at Bir Sigam. The spring, which is located 7 kilometers east of Bahariya on Cairo Road, is the best hot spring in terms of temperature.

If you wish to learn more about the history of the Bahariya oasis, we do advise taking an additional excursion to [the Alexander the Great Temple](#), the Museum of the golden mummies, and [the Bawiti tombs](#). You will go to the tombs of Bannentiu and Djed-Ankh-Amun-Iuf (Zed-Amun) at Qasr Selim (26th Dynasty).

Four tombs were discovered near the Qarat Qasr Selim ridge in 1938 by Egyptian archaeologist Ahmed Fakhry (1905-1973).
