Begin your day with a delicious breakfast at the hotel before embarking on your journey to explore the Great Pyramids of Giza.

The pyramid of Khufu is a marvel, constructed with over two million stones, each averaging around two and a half tons. Some stones even reach a staggering weight of 15 tons, while the roof tiles of the King's Chamber weigh 45 tons each. The pyramid's volume is approximately 89 cubic feet, and its total mass is estimated to be over 6,840,000 tons.

Following the awe-inspiring visit to the pyramids, enjoy a lunch with a captivating view of these ancient wonders.

Next, venture to Dahshur, situated in proximity to the Giza pyramids. Dahshur, a village hosting an ancient royal necropolis, is located about 25 miles (40 kilometers) from Cairo. This necropolis, set against the desert backdrop on the west bank of the Nile, holds historical treasures.

Day 3: Museum of Civilization and El Refaai Mosque

Start your day with a delightful breakfast and prepare for the next exciting adventure.

Our first stop is [The National Museum of Civilization](#), where we'll explore the Temporary Exhibition Hall covering 1,000 square meters. This hall showcases four crafts – pottery, woodwork, weaving, and jewelry – featuring around 400 artifacts from various eras. Additionally, it presents a vast collection of heritage pieces, along with films and images that highlight the unique essence of authentic Egyptian crafts.

Following the museum visit, indulge in a delicious lunch at a nearby traditional restaurant.

Continuing our tour, we'll visit [Sultan Hassan El Refaai Mosque](#). Situated in a location that was once a market known as "the horse market," the mosque has a rich history, with a palace constructed by Al-Nasir Muhammad bin Qalawun for the residence of Prince Yalbugha Al-Yahawi.

Return to the hotel for a relaxing evening, enjoying dinner and your overnight stay.

Note: The provided itinerary is subject to change based on local conditions and availability.

Day 4: A Visit to Luxor

Following breakfast, prepare to journey to Luxor. Upon arrival, take some time to rest and check into your hotel.

Our first visit will be to the magnificent Karnak Temple. During the Thirtieth Dynasty, the kings sought to approach God by expanding the temple complex, adding buildings, erecting statues, obelisks, and offering gifts. As the site expanded, successive kings constructed buildings on multiple sides, sometimes removing the structures of their predecessors to make way for their own.

Next, we'll explore [the Great Temple of Luxor](#). King Thutmose III established booths for visitors to the holy trinity of Thebes, with Tutankhamun later completing inscriptions on its walls. The triple cabin, initially built during the reign of Queen Hatshepsut and King Thutmose III, was destroyed and subsequently rebuilt under King Ramses II. Often referred to as "Epet Reset," this temple stands as one of the best-preserved Egyptian temples, showcasing the clear layout of an Egyptian temple.

Conclude your day with a return to the hotel for lunch, and savor the nighttime ambiance in Luxor.

Note: The itinerary is subject to change based on local conditions and availability.

Day 5: Luxor Attractions

After enjoying your breakfast, you'll embark on a visit to the most renowned attractions in Luxor. Start your exploration with the Valley of the Kings, where the last burial chamber, known as Tomb No. 63, was discovered in 2006, and additional entrances were found in 2008. These royal tombs are notable for intricate drawings and inscriptions depicting ancient Egyptian mythology, illustrating religious beliefs and memorial ceremonies of that era. Following the Valley of Kings, proceed to the Valley of Queens, formerly known as "Ta-Set-Nefru," translating to "the place of the sons of the pharaoh" or "the place of beauty." This area served as the final resting place for the queens of Pharaonic families.

Take a break for lunch in the midst of these historical surroundings.

Continue your journey to el-Deir el-Bahari, where King Hatshepsut's mortuary temple stands. Preceded by about 600 years by King Mentuhotep Nebhepetre from the Middle Kingdom, this temple features a stepped design, later borrowed by Queen Hatshepsut for her own temple.

The exploration concludes with a visit to the Colossi of Memnon. These two statues represent King Amenhotep III seated on a throne with a low backrest, flanked by his wife, Queen "T," and his mother, "Mutt Um Wya." Inscriptions on both sides of the throne symbolize the unification of the country, linking the Nile's papyrus plant and lotus to the Delta and Upper Egypt.

After this enriching day, return to the hotel to rest and unwind.

Day 6: Edfu and Kom Ombo Temples

On this day, we will conclude our Luxor tour by visiting the magnificent [Temple of Edfu](#). The city of Edfu owes much of its renown to this temple, considered one of the most beautiful and comprehensive Egyptian temples. It seamlessly integrates various elements and features an abundance of scenes and texts, providing a captivating glimpse into ancient Egyptian history.

Following this, we will explore [the temple of Komombo](#). It's noteworthy that ancient Egyptian physicians were pioneers in performing surgical operations on living individuals, employing techniques such as cutting and removing sections of the head bone using tools like scrapers and chisels. Intriguingly, the ancient Egyptians used a device called "Hemm" to open abscesses, and these tools, along with medical texts, were stored in leather bags.

Enjoy inclusive meals throughout the day, including breakfast, lunch, and dinner.

Day 7: Visit To Aswan Attractions

After enjoying a hearty breakfast and a hot beverage, prepare to embark on a journey to Aswan in our private air-conditioned cars.

Your first stop will be [The High Dam](#), a monumental structure that shielded Egypt from droughts and famines caused by the irregular floods of the Nile River. During the period from 1979 to 1987, around 70 billion cubic meters of water were withdrawn from the High Dam Lake to offset the annual deficit in the natural revenue of the Nile River.

Next, visit [the unfinished Obelisk](#). Though information about this incomplete work is limited, some believe it was carved on a colossal scale to be the largest obelisk in Egypt. Some opinions suggest that Queen Hatshepsut commissioned the construction of this unfinished obelisk as a symbol of her strength and stability.

Conclude your day in Aswan with a sailboat trip to the Nubian Village. Here, the villagers showcase their culture, customs, and traditions, preserving the Nubian environment in both form and substance. The Nubian Village has become a delightful and culturally rich destination in Egypt.

Finally, return to the hotel in Luxor, where breakfast, lunch, and dinner are all included in our program.

Upon reaching Fayoum, the first stop is the [Lake of Qarun](#), also known as the Pond of Qarun. This lake is located northwest of the city, west of the Nile River, and is one of the largest natural lakes in Egypt. Delve into the history surrounding Lake Qarun before taking a break to enjoy lunch.

Continuing the journey, your guide will lead you to Wadi El Rayan Reserve in the southwestern part of Fayoum Governorate. The reserve features the upper lake, lower lake, the waterfalls area connecting the two lakes, Uyun al Rayyan area south of the lower lake, and the Jabal al Rayan area, which surrounds the springs.

Additionally, you'll find the Valley of the Golden Mummies cemetery.
