After admiring the beauty of the temple, you will take a break before continuing on to the next stage. You will board a Nile cruise for lunch.

The Luxor Temple is one of the most beautiful and important temples in ancient Egypt. It was built more than 4000 years ago and is still in use today. The Luxor Temple is home to three major gods, Amun-Ra, his wife Mut, and their son Khonsu. The gods are known as the Theban Trinity and are revered by many people around the world.

The Luxor Temple is an important and historic site, dating back to the eighteenth dynasty kings and the nineteenth dynasty kings. The most important additions made by these kings were the open courtyard, the edifice, and the two obelisks. Today, this temple is a popular tourist destination, and it's thanks to the impressive work of these earlier rulers that it remains so beloved today.

King Thutmose III and later King Tutankhamun set up chapels for visitors to the Holy Trinity of Thebes. The triple cabin, which had been built before during the reign of Queen Hatshepsut and King Thutmose III (of the Eighteenth Dynasty), was destroyed. Then it was rebuilt during the reign of King Ramses II.

The temple is also known as "Ibet-Reset"--a place of worship dedicated to the god Amun-Ra. It is one of the best preserved Egyptian temples, and its layout is clearly evident in it.
